I

Pambansang Dalubhasaang Pansakahan

Hiyas na su,ilay sa dibdib ng Bulacan

Kaakbay ang karunungan sa kaunlaran

Mithii'y malinang malikhaing isipan

II

Baya'y inasam ang iyong kandili

Bagong kaalaman sa kabataa'y hasik

Murang diwa'y nilinang sa baying iwi

Kabunduka't kaparangan tanging saksi

KORO:

Sintang Dalubhasaan sa iyong paanan

Handog yaring puso, diwa't kalooban

Gawad mong biyaya, ito'y aming iingatan

Nang 'yong pamana'y tamasahin habang buhay

HIS EXCELLENCY RODRIGO ROA DUTERTE

President, Republic of the Philippines

Malacañang Palace, J.P. Laurel Street

San Miguel, Manila

Dear President Duterte:

Greetings of peace.

I have the honor to submit to your good Office for your perusal the accomplishments of the Bulacan Agricultural State for School Year 2016-2017. These humble accomplishments were realized through the concerted efforts of the BASC Board of Trustees, College officials, faculty, non-teaching staff and students, along with the generous support from various stakeholders and partner-agencies both from the government and private sector.

With deep appreciation of your support and those of other government institutions that have contributed to our accomplishments, I thank you very much on behalf of the BASC family and the communities that it serves.

Sincerely yours,

GERARDO I. MENDOZA, Ph.D.

College President

CAMPUS HISTORY

The story of Bulacan Agricultural State College, a product of decades of educational and sociopolitical metamorphoses, is humble and remarkable. It is a 60-year old state-funded institution of learning situated in Brgy. Pinaod, San Ildefonso, Bulacan.

Established in 1952, the Institution started as the Plaridel Community Agricultural High School (PCAHS) located in Brgy. Bintog, Plaridel, Bulacan. Soon after, PCAHS was renamed Bulacan Provincial Agricultural High School (BPAHS) having just about 100 students. A growth in the student population occurred as students arrived not just from local communities but from other municipalities in the province as well. On 20 June 1953, its name was again changed to Bulacan National Agricultural High School (BNAHS) by virtue of Republic Act 948.

On 8 June 1955, then Pres. Ramon DF. Magsaysay signed Proclamation 163 reserving around 192.5 hectares of the Buenavista Estate for BNAHS. By virtue of Republic Act 2416, BNAHS was converted to Bulacan National Agricultural School (BuNAS) on 21 June 1959.

In 1960, the two-year Associate in Agriculture program became part of the curricular offerings of BuNAS; the first tertiary education program offered in the school which eventually led to the offering of the Bachelor of Science in Agriculture degree with majors in Agronomy and Animal Husbandry.

Cognizant of the prevalent agriculture education and training needs of Bulakeños at the time, Hon. Ricardo C. Silverio, then Representative of the 3rd District of Bulacan, authored House Bill No. 2389 which proposed for an expanded educational program for BuNAS. With the bilateral approval of both Houses, then Pres. Fidel V. Ramos signed Republic Act 8548 officially converting BuNAS into a chartered state college known as the Bulacan National Agricultural State College (BNASC) on 24 February 1998. Over time, its name was changed to Bulacan Agricultural State College (BASC) by virtue of Republic Act 9249 signed by Former President Gloria M. Arroyo on 19 February 2004.

Situated between the country’s capital Metro Manila and the Province of Nueva Ecija, it opened its doors in 1952 and 60 years later, it continues to be devoted to discovering answers to the profound challenges of this generation and training students for leadership in today’s multifaceted world. Furthermore, BASC has grown to be a regional leader in higher education and remains to be recognized for offering excellent agricultural education, interdisciplinary partnerships and innovative research programs.

The College still supports competent collaborators from different backgrounds to work together with the Administration in the direction of feasible targets. It advocates alliance and modernization across conventional hindrances of education, generating exceptional individuals who pass on their mark to the world. Most of all, BASC continues to uphold its pledge to students, viable research and education.

Like every distinguished education institution, BASC equally pondered and operated upon the bigger world. Its groundwork later became potent and creative. Personnel, students and alumni, partners and stakeholders, and allies have united for this grand educational endeavor. BASC would not be BASC without their dreams, service and allegiance.

Now, its educational calling is to help students by coaching them with leadership and problem-solving proficiency and principles of quality, moral conduct, responsibility to humanity and faithfulness to their potential jobs. Everything is being done to train students for sensible global citizenship and leadership by combining sustainability, public responsibility and esteem for varied outlooks all throughout their curriculum while they acquire deep professional competence.

At present, the College has two campuses, both of which are located at the 3rd District of Bulacan. The Main Campus is located in Brgy. Pinaod, San Ildefonso while the satellite campus was established in Brgy. Sapang Bulak, Doña Remedios Trinidad (DRT) in 2005 which is aptly called the DRT Campus.

At BASC, we believe that every student, staff and client brings a unique aspiration. All are welcomed and encouraged to carry out accomplishments they feel can play a part to self, community, country and international progress.

From the President

The Bulacan Agricultural State College comprises a unique intellectual community. Our work here is marked by a commitment to free and responsive discovery, informed discourse, and attainable educational agenda. Each member of the College community adheres to contribute to the instruction, research, extension and production functions of the institution which define the College and enable it to have a meaningful influence on the world around us.

For SY 2016-2017, BASC marked sustained growth in terms of delivering services to the community and stakeholders. This academic year's theme, therefore, is "Uplifting communities, changing lives, championing educational challenges, moving onwards." The College gained recognition for being able to extend technologies aimed at uplifting the living condition of the marginalized farming families situated in the College's service communities.

There is an underlying positive undertone on this. This growth in extension activities implies numerous significant phenomena of different nature, such as the financial, socio-political and cultural aspects. The community has been upholding the value of modernized technologies, hence farmers persevere to adopt these modernization initiatives. This leads to making local economy good for people to generate resources for the education of farmers' children. But on top of all these, I am confident that the main reason is the improved quality of services BASC offers to stakeholders. All of these conditions worked and will definitely continue to work to the advantage of the College.

The College's performance in the various regional and national competitions, whether in the area of academic, cultural and sports, similarly added up to this year's achievements. Not only have we proven our students' competence, but also we were able to harness further their skills, knowledge and confidence. Truly, we live by the principle that learning comes not only from the classroom but also elsewhere. Even the graduates' performances in licensure examinations have proven to be affirmative of the BASC's academic successes. Accreditation of programs by the AACUP likewise contributed to the elevation of BASC status. The collaborative efforts of all have paid off.

We also take pride in being a recipient of Performance-Based Bonus (PBB). This only means that efforts and initiatives were exerted. Another area where BASC has performed well is on resource generation for improvement of facilities. Clearly, such is a manifestation of stakeholders' trust to the leadership of the College. With these endowments, more facilities for the benefit of the students have been built.

The research and extension areas have been similarly contributory to AY 2016-2017's success. Significant funds to support various research and extension projects and activities have been generated from funding agencies. Papers were also presented in the international assemblies.

Indeed, it takes a team to build a strong community and accomplish great things as one. As I review the details of this report, it is clear that the accomplishments recounted here are the result of extraordinary teamwork by the College's most important asset — its people. Having said this, I am extending my sincerest gratitude to all of us who have labored very diligently just so we do not stop growing.

Thank you very much, and may God continue to guide us toward a common goal – relevance and excellence.

65th Founding Anniversary Celebration

The college celebrated its 65th Founding Anniversary on February 22-24, 2017 with the theme “*Uplifting communities, changing lives, championing educational challenges, moving onwards*”. The three-day celebration was opened with a thanksgiving mass followed by the blessing of newly constructed facilities, after which a formal opening of the celebration was conducted followed by a motorcade participated by the BASC community.

The celebration of the thanksgiving mass on the first day of the Anniversary

The afternoon of the first day was also highlighted by different activities such as the Search for Mr. & Ms. BASC 2017 pageant organized by the Supreme Student Council.

Fun games were also facilitated by the Supreme Student Council simultaneously with the opening of one-stop-shops to provide basic services from the PSA, BIR, PhilHealth, Municipal PAO and Pag-ibig.

A BASC Alumni Homecoming was likewise held in the afternoon of February 23, 2017. The activity was attended by different batches of alumni.

A mass demonstration activity was also conducted by different institutes in the morning of the third day.

BASC CONDUCTS ORIENTATION FOR LEVEL III (PHASE 2) REACCREDITATION

The institute of Agriculture is set to undergo the Level III-Phase 2 reaccreditation of its Bachelor of Science in Agriculture program this September 2017. This is so far the highest reaccreditation of program that the College shall undergo. The orientation was given by Dr. Manuel T. Corpus, AACCUP Executive Director. Dr. Corpus made suggestions on how to prepare the narrative report which will be submitted to the AACCUP Office two months before the actual reaccreditation. It was held on April 24, 2017 where faculty and staff

In the Level III-Phase 2, the College shall prepare a narrative report for four areas. Two areas will be the instruction and extension as compulsory ones while the remaining two will be selected from the areas of research, linkages, library and faculty development. Significant undertakings and/or best practices derived from the program should be highlighted to capture the strength of the program.

In the guidelines, each area is presented by the dean of the Institute with 30 minutes allotted time for each. Panel interview will immediately follow after the presentation.

ENROLLMENT

The impact of the K to 12 program of DepEd was felt this academic year 2016-2017 by higher education institutions. BASC being one is not an exemption. The enrollment dropped by 24.36% as compared to last year's 1st semester enrolment.. A total of 3,581 students enrolled for 1st semester AY 2016-2017, while last year first semester was 4,734.

The second semester of the current academic year was even lower when almost 3% dropped or did not pursue during the term. However, comparing the enrolment of the 2nd semester last year from the enrolment of the 2nd semester of AY 2016-2017, it can be noted from Figure 1 that it's lower by 21.6%.

14TH AGENCY IN-HOUSE REVIEW OF COMPLETED AND ON-GOING RESEARCH & DEVELOPMENT OR EXTENSION PROJECTS

The Research, Extension and Training Office has successfully conducted the 14th Agency In-House Review of Completed and On-Going Research & Development or Extension Projects at the Rene Cayetano Hall. The keynote speaker invited was Center Director Veronica Concepcion V. Esguerra of the Department of Agriculture-Agricultural Training Institute who was represented by Mrs. Elsa F. Victoria, Training Specialist III, DA-ATI III. Fifteen (15) technical papers under Research category, nine (9) technical papers under Development category and nine (9) poster designs were evaluated during the said review .

Table 9. Capital Outlay Released through FY 2016 GAA

P/A/P	AMOUNT
Construction of Agriculture Building	20,000,000
Construction of Farmers’ Training Center	20,000,000

This was preceded by the Annual RET Planning Workshop for the Revision of the RET Agenda held last March 7 which was attended by 36 participants composed of RET officials and staff, Institute Research Coordinators and Program Leaders. The workshop was facilitated by Dr. Modesta Lugos, former VP for Planning at Bulacan State University. The discussion on focused commodities were also held last July 4 at the RDC Conference Room. This was also participated by the Institute Deans, Institute Research and Extension Coordinators and Program Leaders.

A series of training for improving the research capability of faculty members were also conducted last March and April. A Training-Workshop on Statistics for Beginners was also held last March 9 attended by 41 faculty members and facilitated by Ms. Leah V. Indon, RDTM Director.

On the other hand, a Seminar-Workshop on Utilizing Statistics for Publication was held on March 17 which was participated in by 36 faculty members and facilitated by Mr. Alvin Pequiro, Statistics Professor from Central Luzon State University.

Lastly, a Seminar-Workshop on Action Research was held last April 4 at the RDC Hall. Dr. Adela C. Beringuela, a retired professor from the University of the Philippines, enlightened the 37 participants composed of faculty members.

20.1 Depreciation

The straight line method of depreciation is adopted using the 5% salvage value for all acquired in CY 2016 but maintain the 10% salvage value for all those acquired prior to CY 2015. The breakdown of the Depreciation Expense is as follows:

	2016	2015
Land Improvements	P 578,752.62	P 578,752.38
Buildings and Other Structures	3,786,320.92	3,049,605.91

Total Depreciation	P 8,533,163.39	P 7,266,334.35

21. Gains

The non-operating income/gain of P864,408.53 in CY 2016 comes from the sale of waste materials like newspapers and value of condemned property; income from the sale of PE Uniform; accumulated collection of electricity payment of various cottages in the campus and Institute Development fee collected from students. These collections were formerly treated as trust funds.

Multi-Location Adaptation Trial (DA-RFO III)

Eighteen (18) hybrid varieties using direct seeded and transplanted methods was conducted at the Bureau of Soils and Water Resources Management with Data gathering as held last October 14 for the wet season. Harvest was conducted last November. Data gathered was submitted to PhilRice for consolidation. Agronomic data such as plant height, number of filled and unfilled

Combined Tillage and Weed Control Practices for Upland Rice Ecosystem in Bulacan (DA-RFO III)

Monitoring of the project was conducted with Dr. Arthur Dayrit, Focal Person on Rice of the Department of Agriculture-Regional Field Office 3 (DA-RFO 3) at Sapang Dayap, San Ildefonso, Bulacan last September 7, 2016. He was joined by Dr. Josie A. Valdez, Project Leader, RDTMO Dir. Leah V. Indon, then ETO Dir. Jennifer I. Guevarra, Ms. Julie Ann C. Dision, Mrs. Joan Quenn M. Villanada, project staff .

Evaluation of Daisy Duran as Extension Service Provider (ESP): A Case Study (DA-ATI)

A total of 42 participants composed of Ms. Duran, her staff, farmers and farm owners were interviewed from June to September. The study was completed as of December. The study concluded that the personal characteristics of Ms. Duran have been effective in delivering extension services to the farmers. Ms. Duran is also very generous as she does not have a competitive streak with her fellow farmers and she was willing to share whatever she knows through her experiences to complement the limited theoretical background.

Evaluation of the Season Long Training of Trainers on Sustainable Rice Production & Adoption of the TOT Graduates' Action Plan through FFS (DA-ATI)

Fifteen out of the twenty-two (22) participants of the Season-long Training of Trainers on Sustainable Rice Production held at Central Luzon State University, Science City of Munoz and at ATI-Region III, Singalat, Palayan City, Nueva Ecija, conducted last June 18, 2012 to October 19, 2012 were included as respondents of the study. Surveyed participants of the FFS are composed of 111 respondents from San Leonardo (25), Laur (19), Guimba (7), Talavera (7), Sta. Rosa (6), Cabanatuan City (5), and Palayan City (5) in Nueva Ecija; Baler (10) and Maria Aurora (9) in Aurora; and San Marcelino, Zambales (18). Significant relationship was noted between adoption of SRP practices and rice yield ($p=.000$) using linear regression. Data shows that increased level of adoption lead to higher yield. This indicates that as farmers intensify their adoption of the knowledge gained through FFS, significant increase in their rice yield was observed.

Performance of Bittergourd as affected by Application of Vermicompost with Vermitea (BASC)

The experiment was established at the 250 sq m area of Palayamanan in the College. The study was undertaken from October 2016 to February 2017 (dry season). Results of the study show that for the total number of marketable fruits, no significant difference was observed from the 10 sample plants of the different treatments. More fruits were harvested in Treatment 3 (75% BASC Vermicompost+Vermitea) when compared with Treatment 4 (100% BASC Vermicompost +Vermitea) and Treatment 2 (50% BASC Vermicompost+Vermitea).

Palayamanan in the Community (PhilRice and PGB)

A Lakbay-Aral and Training on Livestock and Poultry Production and Waste Management & Integrated Farming System was held at the BASC-Windmill Collaborative Techno-Demo Farm at Malipampang, San Ildefonso Bulacan last January 26 which was attended by 39 farmers.

There is also continuous monitoring of the 10 Palayamanan communities (PC) established under the project. The said PCs are located at San Ildefonso, San Rafael, San Miguel, Calumpit, Bustos and DRT, Bulacan. Members of the PC can avail of the financial assistance of PhP 4,000.00 in the form of roll over scheme payable upon harvesting of crops, with 1% monthly interest.

Accelerating the Development, Adaptation and Promotion of Palayamanan Plus (PhilRice)

The PhilRice funded project is located at Brgy. Dagat-dagatan, San Rafael, Bulacan, and is closely being supervised by DA-LGU of San Rafael. It has initially a total of 54 farmer cooperators which were divided into four groups, namely: rice, vegetable, mushroom and livestock group. The groups were provided with assistance in the form of trainings and loan inputs such as certified seeds, vegetable seeds, mushroom spawn, native piglets, goats and free-range chicks. To date, re-dispersal of piglets and kids to other members has been made and the assembly of mushroom house and equipment has been requested.

Recent release of loans to 47 farmers was undertaken last January 10. Each farmer received PhP 10,000.00 cash loan per season payable after four months or upon harvesting, with one percent interest. Prior to the release of loan, farmer-beneficiaries were asked to submit the cost and return report of the preceding cropping season where loan was used. Income from interest was utilized to finance the addition of farmer-beneficiaries in the locality, renovation of the Technology Commercial Center, product exhibition activities, and honorarium of project staff.

Farming activities of farmer-beneficiaries are being monitored by assigned staff, especially during planting and harvesting season

Mobile Entrepreneur’s Training School (BASC)

The extension project of the Institute of Management conducted a series of Basic Training on Management and Marketing in Brgy. Sapang Putik and Brgy. Malipampang, San Ildefonso, Bulacan on June 3 and 10, respectively. Pre-membership and Education Seminar (PMES) were also conducted to 4Ps recipients held at Brgy. Bulusukan and at Brgy. Sapang Putik, last September 23. The seminar aimed to organize the 4Ps recipients into a cooperative. Fifty-four (54) 4Ps recipients from Bulusukan and thirty-five (35) 4Ps recipients from Sapang Putik participated in the said activity.

CAPACITY ENHANCEMENT

The Research, Development and Technology Management Office conducted a Seminar-Workshop on Writing for Publication participated by 45 BASC Faculty members and researchers held at RDC Conference Hall, last September 20. The workshop aimed to assist faculty members in transforming theses and research reports into publishable articles. Mrs. Leah V. Indon, Editor, BASC Research Journal served as the facilitator of the workshop. She also discussed the Publication Policies and Research Journal Guidelines. A draft article was expected from the participants which may be published in the BASC Research Journal.

The carabao project of the College started in CY 2007 through a Memorandum of Agreement Between the Provincial Government of Bulacan represented by then Governor Josefina Mendoza dela Cruz and Bulacan Agricultural State College represented by then College President Dr. Josie A. Valdez with initial fund release of P2,000,000.00 to develop a new breed of carabao which will be known as Bulacan Buffalo through implementation of continuous genetic improvement processes and extensive research and development.

This agreement was valid for a period of 5 years and can be extended as agreed upon by both parties involved. In CY 2013 a new memorandum of agreement was entered into between the Provincial Government of Bulacan (PGB) represented by Governor Wilhelmino M SY-Alvarado and BASC College President Dr. Gerardo I. Mendoza for the implementation of the project “Establishment of Carabao Demo/Nucleus farm at BASC” which will operate for five (5) years with a budget of P5,000,000.00. The obligation of BASC is to supervise the operation of the Nucleus/Demo Farm, and utilize the same as a laboratory facility for the students of Agriculture, Animal Science and allied programs. The BASC shall surrender all the female offsprings produced by the Demo/Nucleus Farm to PGB to be used for their carabao dispersal project. Mr. Honorato Apostol is the assigned personnel to manage the operation of the project. From the initial release of the project, BASC was able to purchase carabao, calf and Buffalo. As of December 31, 2016 the recorded inventory of carabao is 35. While the goat project of the College started through a Memorandum of Agreement with DA BAR in CY 2009 with a total budget of P2,484,000.00 for the Project entitled “Meeh Kita: Goat Upgrading and production in the Villages”. Per Inventory, the total number of goat as of December 31, 2016 is 98. For cattle, there is 4 in the inventory.

9.2 Livestock

Livestock inventory amounting to P508,840.00 represents the 2,400 heads ready to lay Pullets for the Table egg production of the College at P235.00 per heads purchased in June 2015 for 18 months operation. As of December 31, 2016 the remaining layers numbered to 1776 heads.

qualification. For many assets, the fair value was ascertained by reference to quoted prices in an active and liquid market.

3.6.2 Revenue from Exchanging Transaction

Interest income

Interest income comes from the College's bank deposits to LBP and DBP.

Rental income

Rental income arising from Memorandum of Agreement (MOA) with San Ildefonso Water District to restore, rehabilitate and make the operation of the BASC old deep well pump fully functional to ensure that the water requirements of the college are met and for the pump to be an additional water pumping station for the domestic operation of SIWAD. Monthly rent income amounting ₱12,000.00 comes from Oilwell 88 Incorporated for the operation of gas station under the name of Flying V for 20 years ending in CY 2033.

3.7 Employee Benefits

The employees of Bulacan Agricultural State College are members of the Government Service Insurance System (GSIS), which provides life and retirement insurance coverage.

4. Prior Period Adjustment

The Bulacan Agricultural State College has determined that small items of inventory of equipment were already unserviceable and recognized as expense as prior period adjustment.

5. Cash and Cash Equivalents

The breakdown of this account is as follows:

	<u>2016</u>	<u>2015</u>

Total Cash and Cash Equivalents	₱ 14,703,286.60	₱ 21,036,721.50

Cash and Cash Equivalents comprise cash on hand and cash in bank deposited as current account to Land Bank of the Philippines, Baliuag branch and Development Bank of the Philippines, Malolos branch.

Depreciation Method

The straight line method of depreciation is adopted unless another method is more appropriate for agency operation.

Estimated Useful Life

The BASC uses the Schedule on the Estimated Useful Life of PPE by classification prepared by COA.

The BASC uses a residual value equivalent to at least five percent (5%) of the cost of the PPE.

Impairment

An asset’s carrying amount is written down to its recoverable amount, or recoverable service amount, if the asset’s carrying amount is greater than its estimated recoverable service amount.

Derecognition

The BASC derecognizes items of property, plant and equipment and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognized.

3.5 Changes in accounting policies and estimates

The Bulacan Agricultural State College recognizes the effects of changes in accounting estimates prospectively by including in surplus or deficit.

3.6 Revenue Recognition

3.6.1 Revenue from Non Exchanging of Transaction

Gifts and Donations

The BASC recognizes assets and revenue from gifts and donations when it is probable that the future economic benefits or service potential will flow to the entity and the fair value of the assets can be measured reliably. On initial recognition, gifts and donations including goods in-kind were measured at their fair value as at the date of acquisition, which were ascertained by reference to an active market, or by appraisal. An appraisal of the value of an asset is normally undertaken by a member of the valuation profession who holds a recognized and relevant professional

The total budgetary allocation for FY 2016 showed a 7.5% increase as compared last year with only 155,567,000. It can be noted also that allocation from Fund 101 increased by almost 20%.

A PPE acquired through non-exchange transaction is measured at its fair value as at the date of acquisition. The cost of the PPE is the cash price equivalent or, for PPE acquired through non-exchange transaction its cost is its fair value as at recognition date. Cost includes the following:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discount and rebates;
- expenditure that is directly attributable to the acquisition of the items; and
- initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired, or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Measurement after Recognition

After recognition, all property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

When significant parts of property, plant and equipment are required to be replaced at intervals, the BASC recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major repair/replacement is done, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied.

All other repair and maintenance costs are recognized as expense in surplus or deficit as incurred.

Depreciation

Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognized as expense unless it is included in the cost of another asset.

Initial Recognition of Depreciation

Depreciation of an asset begins when it is available for use such as when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

For simplicity and to avoid proportionate computation, the depreciation is for one month if the PPE is available for use on or before the 15th of the month. However, if the PPE is available for use after the 15th of the month, depreciation is for the succeeding month.

Subsequent measurement

The measurement of financial liabilities depends on their classification.

Loans and Borrowings

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

3.3 Cash and Cash Equivalents

Cash and cash equivalents comprise cash in bank, deposited in Land Bank of the Philippine, Baliuag, Bulacan Branch and Development Bank of the Philippines, Malolos, Bulacan Branch.

3.4 Property, Plant and Equipment

Recognition

An item is recognized as Property, Plant and Equipment (PPE) if it meets the characteristics and recognition criteria as a PPE.

The characteristics of PPE are as follows:

- tangible items;
- are held for use in the production or supply of goods or services for rental to others or for administrative purposes; and
- are expected to be used during more than one reporting period.

An item of PPE is recognized as an asset if:

- it is probable that future economic benefits or service potential associated with the item flow to the entity; and
- the cost or fair value of the item can be measured reliably.

Measurement at Recognition

An item recognized as property, plant, and equipment is measured at cost.

3.2 Financial Instruments

a. Financial Assets

Initial recognition and measurement

Financial assets within the scope of PPSAS 29 – Financial Instruments: Recognition and Measurement are classified as financial asset at fair value through surplus or deficit, held-to-maturity investments, loans and other receivables or available-for-sale financial assets, as appropriate. The Bulacan Agricultural State College determines the classifications of its financial assets at initial recognition.

Bulacan Agricultural State College's financial assets include cash and other receivables.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification.

Loans and other receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using effective interest method, less impairment. Losses arising from impairment are recognized in the surplus or deficit.

Derecognition

Bulacan Agricultural State College derecognized a financial asset or, where applicable, a part of a financial asset of BASC similar financial asset when:

The right to receive cash flows from the asset have expired or is waived.

b. Financial Liabilities

Initial recognition and measurement

Financial liabilities within the scope of PPSAS 29 are classified as financial liabilities at fair value through surplus or deficit or loans and borrowings, as appropriate. The entity determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognized initially at fair value.

BASC financial liabilities include Inter-Agency Payables and Trust Liabilities.

in today's multifaceted world. Furthermore, BASC has grown to be a regional leader in higher education and remains to be recognized for offering excellent agricultural education, interdisciplinary partnerships and innovative research programs.

Its curricular offerings are Bachelor of Science in Agriculture, Secondary Education, Elementary Education, Agribusiness Management, Food Technology, Biosystems & Agricultural Engineering, Geodetic Engineering, Business Administration, Information Technology, Animal Science, Hospitality Management and Agroforestry

The mandate of Bulacan Agricultural State College shall primarily provide higher professional, technical and special instructions for special purposes and promote research and extension services and advanced studies in agriculture, arts and science programs and other allied courses.

At present, the College has two campuses, both of which are located at the 3rd District of Bulacan. The main campus is located at Brgy. Pinaod, San Ildefonso, Bulacan while an extension campus was established at Brgy. Sapang Bulak, Doña Remedios Trinidad (DRT) in 2005 which is aptly called the DRT Extension Campus. The head of the Institution is Dr. Gerardo I. Mendoza, the third college president, who is now serving his second term of office.

2. Statement of Compliance and Basis of Preparation of Financial Statements

The financial statements have been prepared in accordance with and comply with the Philippine Public Sector Accounting Standards (PPSAS) issued by the Commission on Audit per COA Resolution No. 2014-003 dated January 24, 2014.

The financial statements have been prepared on the basis of historical cost. The Statement of Cash Flows is prepared using the direct method.

3. Significant Accounting Policies

3.1 Basis of Accounting

The financial statements are prepared on an accrual basis in accordance with the Philippine Public Sector Accounting Standards (PPSAS) 1. The financial statements are presented in Philippine peso which is the college functional currency. All values are not rounded to the nearest peso.

BULACAN AGRICULTURAL STATE COLLEGE
NOTES TO FINANCIAL STATEMENTS
 For the Year Ended December 31, 2016
 (With Comparative Figures for CY 2015)

1. General/ Agency Profile

The financial statements of Bulacan Agricultural State College (BASC) were authorized for issue as shown in the Statement of Management Responsibility for Financial Statements signed by GERARDO I. MENDOZA, Ph. D., President.

The story of Bulacan Agricultural State College, a product of six decades of educational and socio-political metamorphoses, is humble and remarkable. At present, it is a state-funded institution of learning which was established in 1952 at Brgy. Pinaod, San Ildefonso, Bulacan.

Prior to this development, it stated as the Plaridel Community Agricultural High School (PCAHS) established at BRGY. Bintog, Plaridel, Bulacan in 1951. Soon after, PCAHS was renamed Bulacan Provincial Agricultural High School (BPAHS) having just about 100 students. A growth in the student population occurred as students arrived not just from local communities but from other municipalities in the province as well. On June 20 1953, its name was again changed into Bulacan National Agricultural High School (BNAHS) by virtue of Republic Act 948.

On June 8, 1955, the Pres. Ramon D.F. Magsaysay signed Proclamation 163 reserving around 192.5 hectares of the Buenavista Estate for BNAHS. By virtue of Republic Act 2416, BNAHS was converted to Bulacan National Agricultural School (BuNAS) on June 21, 1959.

In 1960, the two-year Associate in Agricultural program became part of the curricula existing in BuNAS: the first tertiary education program offered in the school which eventually led to the offering of the Bachelor of Science in Agriculture degree with majors in Agronomy and Animal Husbandry.

Cognizant to the prevalent agriculture education and training needs of Bulakeños at that time, the Hon. Ricardo C. Silverio, then Representative of the 3rd District of Bulacan, authored House Bill 2389 which proposed for an expanded educational program for BuNAS. With the bilateral approval of both Houses, then Pres. Fidel V. Ramos signed Republic Act 8548 officially converting BuNAS into a chartered state college known as the Bulacan National Agricultural State College (BNASC) on February 24, 1998. Over time, its name was changed to Bulacan Agricultural State College (BASC) by virtue of Republic Act 9249 signed by Former President Gloria M. Arroyo on 19 February 2004.

Situated between the country's capital Metro Manila and the Province of Nueva Ecija, it opened its doors in 1952 and 60 years later, it continues to be devoted to discovering answer to the profound challenges of this generation and training students for leadership
